It has come to my attention that, as this committee has changed to electronic filing, all reports must be filed electronically. I was not aware of such when I sent a letter to the Federal Election Commission in July stating that this committee had not raised, or spent any funds in any way since its inception. Even though this committee successfully mailed a form to the Federal Election Commission before the filing deadline of July 31, and as this committee has yet to raise or spend any funds in any ways since its inception, I submit this form in lieu of FEC form 3X.
